- Payments of debts for things taken before the survey on credit (payment of a credit to a store owner at the end of the month).

WATCH OUT : if the page is not enough to record all expenses and acquisitions of a day, continue on the next page, while writing the same date and the same number of the day.
You can be helped by someone to fill the booklet.
Make sure that the expenditure that you record has not yet been recorded in a different booklet of your household.
The interviewer will pass every three days in your household in order to record the expenses and acquisition that you have recorded in your booklet.
